## Description

Illuminated silicone tube supported within a metal structure that allows rotation to provide direct or indirect light. Suitable for creating compositions up to three units with a single remote driver. Remote driver must be placed in an IP/65 box or in a dry location. Optional surface canopy with IP/65 junction box to fit the driver. Double layer coating for high resistance to corrosion and other maritime environmental conditions.

Pictures above might not show the specified dimensions or material. They are for illustration purposes only.

## Ordering information
