# BRAND WITH SOUL

Our purpose is to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design.

Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en un diseño honesto, accesible y cercano.

# TURN OFF THE LIGHT

Our sustainability journey focuses on minimizing our environmental footprint and maximizing our positive impact on society.

Nuestro camino hacia la sostenibilidad se centra en reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

# DC WALL CONTROLLER WITH DIMMER

This new wall control for DC motor fans features an updated front design with borderless organic glass, designed to fit in standard recessed box, either round or square. It also supports a light dimming function and connects wirelessly to the fan via radiofrequency.

Ref. 33988  
Front Glossy Black  
Body Matt Black

Ref. 33987  
Front Glossy White  
Body Matt White

**Material** Body ABS  
**V/Hz** 100-240V/50-60Hz

Compatible with standard recessed box

# ONE CONTROL FOR ALL

Compatible with all DC wall controller

This new remote control incorporates several memory options, that is to say, the fan will be able to remember certain configuration types: light memory, fan memory, confirmation sound and keypad lock. This allows for greater customization.

The light and fan memory, sound confirmation block, and keypad lock come deactivated by default, so if you wish to activate them, you will need to follow the steps below. If you have activated them and want to revert it, you can follow the same steps.

- 1 After its installation and complete assembly, cut off the power to the fan for at least 10 seconds.
- 2 Insert the batteries into the remote control.
- 3 Reconnect the fan to the power. The receiver will be active for synchronization only during the 30 seconds after reconnecting the power.

- 4 Press and hold the following button, depending on the configuration you need, until a continuous beep of about 2 seconds is heard.
  - BUTTON 1:** Light kit memory: the fan will remember the last configuration.
  - BUTTON 3:** Confirmation sound block: it will avoid hearing any "beeps" when using the fan.
  - BUTTON 4:** Keypad lock: you can lock the keypad, except for the on/off button. Ideal for hotels and homes with children.
  - BUTTON 6:** Fan memory: the fan will remember the last configuration once it is turned on, including speed, reverse and breeze modes.

**\*Special configurations**
