LASKASAS

PART 1

*ROOTS AND STORIES*

This is where we come from. And we're proud of our roots and all the stories that make us, us. Our past has been all about crafting love pieces. That's what we'll continue doing into the future.

**OUR WHY**

Italian Inspiration X Portuguese Roots **6**

**MADE IN PORTUGAL**

Portugal has a long history of furniture manufacturing **10**

PART 2  
*INSPIRING SPACES*

The inspirations that follow are a tribute to some of the personalities who defined the Interior Design and Architecture industries and whose work deserves to be celebrated. The spaces don't follow their design style, but the names were attributed in their honour.

# PART 1

*ROOTS AND STORIES*

# ITALIAN INSPIRATION *X* PORTUGUESE ROOTS

## **ITALIAN INSPIRATION X PORTUGUESE ROOTS**

Food. Fashion. Automobiles. Furniture. Interiors. Lifestyle. Italy's rich history is evident in its bold and brash creations. Italian design is always sexy, gorgeous—and gorgeously made. Italy's importance in the history of furniture truly cannot be understated. Mix their history with Portuguese know-how and furniture-making tradition and the result is impressive.

The broad lineage of Italian brands, designers, fashion houses, and high-end labels have each contributed to the shape of style today.

Laskasas' designers get inspired by them and then give the pieces their own special touch.

As a family-owned business that has its roots set in Rebordosa, Porto, we are very proud of our Portuguese heritage and Italian influences.

They set the tone for what home means to us.

## **WHAT HOME MEANS TO US**

Home for us is a safe haven and a comfort zone. A place to live with our families and pets and enjoy with friends. A place to build memories as well as a way to build future wealth. A place where we can truly just be ourselves.

Home is a feeling of belonging, where the heart feels comfortable with all its surroundings. Home for us means total acceptance.

This does not necessarily have to be the birthplace of a person. It is where you feel secure and a place you always want to go back to or stay for long periods without ever being bored.

It's where you don't have to be perfect. You can put on your pyjamas and sit down with a glass of wine, watching your favourite TV shows.

Home is being around people who can drive you absolutely crazy one moment and make you feel like a million dollars the next. It's knowing that no matter how hard times get, someone is there for you.

A zone where your boss, pesky customers, and bad drivers are absent and where the absurdities of the day can be shared—unchecked, unedited, and without remorse.

"Home" means different things to different people, but at its heart, it means the same thing: that soft place to land that supports us, our shelter that is our oasis of comfort.

Laskasas' creator had this engrained in his vision when he built the brand's first furniture piece: an armchair upholstered in Bordeaux-coloured velvet, that inspired the very first logo of the brand.

Celso Lascasas is the name of the man who started all of this. He inherited his unusual surname from his German great-grandmother. An engineer who arrived in Portugal in the 1920s to help manage the coal mines in Gondomar.

She met the love of her life here, and they started a family together, marking the beginning of a legacy.

Celso Lascasas built a treasure that he shares with those that help him grow the group daily.

Each coin is a reward for something bigger than the dreams that feed his ambition of matching the biggest brands in the world mid-decade: the ability to turn the obstacles that always stood in his way into a launching ramp to a better life than his birth certificate promised him.

Born in Rebordosa (Porto), a small industrial village, as a kid his dream was to become a soccer player, like his father. Today he recognises he didn't possess the necessary talent, so he went looking for it in the furniture business (and he found it!). The furniture industry was present in his life from an early age, thanks to his grandfather and uncle.

It was precisely in the small wood shop next to Celso's childhood home that he started learning the craft at age 13. Celso left school at that age and since devoted his life to woodworking, considered the natural route to follow in his village.

Later in life, he started working with his uncle at a bigger company, and the desire to start his own furniture brand grew even stronger, until 2004 when he risked it all, and open the first Lascasas store.

It was in November of that year that the entrepreneur ventured out and started his dream, which began as a side business.

"I sold some things I owned, got some money, and started a small company composed of two other people and me. I ran a store in my hometown but for a while, I carried on working for another company because I was worried it wouldn't go well.

For a year and a half, I worked in my business on the weekends and during the week in my full-time job.

When I saw my project grow and show results, I quit the full-time job and committed fully to my brand, Lascasas" - Celso Lascasas, 2022

And just like that, the vision of creating furniture that serves people came to life.

As a family-owned business that has its roots set in Rebordosa, Porto, we are very proud of our Portuguese heritage and Italian influences.

They set the tone for what home means to us.

# MADE IN *PORTUGAL*

Portugal has a long history of furniture manufacturing.

Over the past decade, factories have invested in research and development, placing Portugal as currently one of the most robust furniture industries in Europe.

Now it's well known for its impressive craftsmanship and expertise in high-quality furnishings and home decor. "Made in Portugal" is a symbol of quality and reliability.

Portugal has started to make a name for itself in the design industry thanks to the work of emerging designers who are using this craftsmanship to create products that are changing the way Portuguese design is perceived both inside and outside its borders.

There are several factors that have contributed to Portugal's success in the furniture business, both external and internal, but this was the main driver: the savoir-faire built through decades of hard work, combined with the technological innovations and creative and smart marketing, both brought in by the current generation of Portuguese entrepreneurs.

This savoir-faire made Portuguese furniture makers some of the best in the world.
