# BlancoWhite R3

Antoni Arola, 2013
Pendant lamp

This rectangular plate combines smart LED technology with the sobriety of lines that have been refined to the essential, ideal for installation above oblong tables.

All models in the BlancoWhite family house a smart LED plate (executed via a dot cutting system) with small incisions of increasing concavity along the bottom of the light surface which become more concave the further they are from the source, thus lending the light beam homogeneity.
