FINISHES

BACKREST OPTIONS

Metal base structure made of calibrated steel with special protective treatment for outdoor use, powder coated with thermoreinforced polyester in black or white and microtexturized finish. The interior structure in solid wood and plywood board with special protective marine treatment, resistant to water and humidity.

The structure is cinched and covered with expanded polyurethane foam in different densities, polyester fiber, waterproofed and upholstered with outdoor fabric.

Medium backrest

For the production of this pieces Viccarbe is using wood from certified sustainable forestry sources.

Upholstery options

Check upholstery fabrics *for Outdoor*.

Smooth upholstery. Great durability and adaptability to diverse environments. Sistema, with its smooth upholstery, is a perfect choice for commercial spaces, offices, or airports. High traffic areas where privacy and dynamism sometimes become a sine qua non.

Soft upholstery. A meeting point between rationalism and warmth. Soft Sistema emerges as an evolution of the Sistema sofa, presenting a more comfortable interior, as well as a more wrinkled effect in its upholstery, one that is therefore more welcoming.

NOTE 1: There is no possible to combine smooth upholstery modules and soft upholstery modules.

NOTE 2: The sofas with legs must be composed with a minimum of two modules.

LEGS

Scissors legs. Base structure with scissor legs made of calibrated steel with special protective treatment for outdoor use, powder coated with thermoreinforced polyester in black or white and microtexturized finish.

Powder coated

black
RAL 9005

white
RAL 9003

ARMS OPTIONS

Narrow arm. Wooden structure with special protective marine treatment, resistant to water and humidity, covered with non-deformable expanded polyurethane foam in different densities, waterproofed and smooth upholstered with outdoor fabric from our collection.

Curved wooden armrest. Curved oak plywood arm with special protective marine treatment, resistant to water and humidity, upholstered with outdoor fabric from our collection.

POUF OPTIONS

Interior structure in solid wood and plywood board with special protective marine treatment, resistant to water and humidity. The structure is cinched and covered with expanded polyurethane foam in different densities, polyester fiber, waterproofed and upholstered with outdoor fabric. Height adjustable legs.

Squared pouf

COVERS

Outdoor cover available to protect the product from water, humidity and sunlight. Included in the product box.
