

The VARYA TAPIZ collection gather all the upholstered versions in the VARYA family keeping the same transversal and timeless spirit of the collection with plastic seats. With its many versions the collection configure one of the largest and most complete ranges on the market. An extensive family of chairs, armchairs, stools and benches that are generated by combining comfortable mono-shells, available with three different patterns of upholstery: soft, plain or horizontal stitching, with a broad range of base types. The wide variety of possible combinations and finishes enables the configuration of endless customized designs that can easily fit into diverse environments both public and private keeping always a coherent project aesthetic.

SEAT MONO-SHELL

Composition: Internal mono-shell in polypropylene reinforced with glass fibre. Upholstered in variable-density, high-resilient flexible CMHR polyurethane foams. The soft-upholstered version is covered in soft polyester fibre on its front side.

Upholstery: Four types of upholstery are available: plain upholstery, soft-fibre upholstery, upholstery with horizontal seams and upholstery with soft polyester fiber and cross seams.
Finishes: The upholsteries are available in any of the fabrics and leathers from the INCLASS sample book and optionally with fabrics supplied or specified by the customer.

STRUCTURES

4 leg base (stackable):

The legs are made of 16mm round steel tube 2mm thick.
Finishes: In thermoset polyester paint in any of the colours of the INCLASS metallic swatch card or in chrome.

Glides: Includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
Stackability: This version is stackable.

4 leg base (non stackable):

The legs are made of 16mm round steel tube 2mm thick.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
Stackability: This version is non-stackable.

Armchair 4 leg base:

The frame is made of 16mm round steel tube 2mm thick.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
Stackability: This version is stackable.

4 leg plastic base:

Composition: Made of polypropylene reinforced with glass fibre.
Finishes: Available in 14 selected colours with a matt texture.

4 wooden leg base:

Steel inner structure. Finished with grey thermoset polyester paint. Legs in solid oak.

Finishes: The legs can be varnished in natural colour or stained in any of the oak stains of the INCLASS swatch book. They can be optionally lacquered in any of the colours of the INCLASS swatch book.
Glides: Fitted with felt pads in contact with the floor.

Sled base chair:

The frame is made in 12mm solid steel rod.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.
Glides: Includes standard plastic glides in contact with the floor.

To prevent from detaching, the glides are fixed to the structure with screws. They can be optionally fitted with felt glides, suitable for hard and delicate surfaces.
Stackability: This version is stackable.

Sled base armchair:

The base made of 12mm and 14mm solid steel rod. The arm pads are made of polypropilene and can be finished in black, white or grey.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes standard plastic glides in contact with the floor. To keep them from detaching, the glides are affixed to the structure with screws. They can be optionally fitted with felt glides, suitable for hard and delicate surfaces.
Stackability: This version is stackable.

Cantilever chair:

The structure is made of a double core 22mm round steel tube.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes polypropilene glides in contact with the floor.
Stackability: This version is non-stackable.

Cantilever armchair:

The structure is made of a double core 22mm round steel tube.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes polypropilene glides in contact with the floor.
Stackability: This version is non-stackable.

4 star steel swivel base:

The swivel base is made of 18mm steel tube.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
Arms: This base can be fitted with arms made from 16mm steel tube.

4 star aluminium swivel base:

The swivel base is made of cast aluminium alloy. Fitted with fixed felt glides in contact with the floor.

Finishes: Available in a polished finish or coated in thermoset polyester powder coating in black or white.
Arms: This base can be fitted with arms made from 16mm steel tube.

4 star aluminium swivel base + casters:

The swivel base is made of cast aluminium alloy. Fitted with 65mm twin casters with soft-tread.

Finishes: Available in a polished finish or coated in thermoset polyester powder coating in black or white.
Arms: This base can be fitted with arms made from 16mm steel tube.

4 leg base on casters:

The legs are made of 18mm round steel tube 2mm thick. Fitted with 65mm twin casters with soft-tread.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Arms: This base can be fitted with detachable arms made from 18mm steel tube.
Arm with XL writing tablet: This base can be fitted with a detachable arm equipped with an XL writing tablet made from 13mm black hpl. This arm is available for left- and right-handed users.

4 leg base on casters + basket:

The legs are made of 18 mm round steel tube 2mm thick. The base is equipped with a basket made with solid steel rod .Fitted with 65 mm twin casters with soft-tread.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Arms: This base can be fitted with detachable arms made from 18mm steel tube.
Arm with XL writing tablet: This base can be fitted with a detachable arm equipped with an XL writing tablet made from 13mm black hpl. This arm is available for left- and right-handed users.

5 star aluminium swivel base + casters + gas lift:

Swivel base made from cast aluminium alloy. Fitted with height adjustable gas lift column and soft-tread 65mm twin castors.

Finishes: Available in a polished finish or coated in thermoset polyester powder paint in black or white.

Stool with 4 leg base:

The legs are made of 16mm round steel tube 2mm thick, with high proof strength. The footrest is made from 12mm solid steel rod.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
 This base is produced in medium and high versions.

Sled base stool:

The frame is made in 12mm solid steel rod.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes standard plastic glides in contact with the floor. To prevent from detaching, the glides are fixed to the structure with screws. They can be optionally fitted with felt glides, suitable for hard and delicate surfaces.
 This base is produced in medium and high versions.

Stool 4 with star steel swivel base:

The base is made of 16mm round steel tube 2mm thick. The footrest is made from 12mm solid steel rod.
Finishes: Available in thermoset polyester powder coat in any colour from the INCLASS metallic swatch card, or in chrome.

Glides: Includes self-levelling plastic glides in contact with the floor. They can be optionally fitted with felt-glides, suitable for hard and delicate surfaces.
 This base is produced in medium and high versions.

Stool with 4 wooden leg base:

Steel inner structure. Finished with grey thermoset polyester paint. Legs in solid oak.
Finishes: The legs can be varnished in natural colour or stained in any of the oak stains of the INCLASS swatch book. They can be optionally lacquered in any of the colours of the INCLASS swatch book.

Footrest ring: Made from 12mm solid steel rod finished in matt chrome.
Glides: Fitted with felt pads in contact with the floor.
 This base is produced in medium and high versions.

BENCHES

The benches are produced in formats of 2 to 5 seats. Any of the seats can be swapped for a side table in lacquered MDF available in black or white. The beam crossbar is produced with steel tube of oval-section. The feet are in injection-moulded aluminium and are fitted with adjustable glides in contact with the floor.

Finishes: The beam and legs can be finished in thermoset polyester coat in black, white or RAL 9006 aluminium.

INCLASS 4

ACCESSORIES

Foldable writing tablet:

It is fully foldable and can be dismantled. The joint is in polished cast aluminium. The writing tablet is made of 10mm black compact board. It is available for left- and right-handed users.

The writing tablet is available for the following structure versions:
 - Stackable four-legged chair.
 - Sled base chair.

Linking clips for rod sled chairs:

Made of polypropylene. Allow linking rod sled base chairs together to form rows.

Transport trolley:

It allows for easy transport of the stacked chairs for storage. It is made from steel tube and plate. It is finished in thermoset polyester paint in RAL 9006 aluminium colour.

CERTIFICATION & STANDARDS

European Standard UNE EN 16139-2 and ANSI BIFMA X5.4

AIDIMA quality label.

INCLASS quality management is certified in accordance with the ISO 9001 standard in all the design, manufacturing and marketing processes for its products.

INCLASS production processes are certified according to ISO 14001 environmental standard and are performed to minimise environmental impact.
