

FUGA MEDIUM White projector LED RETAIL 24W pearl white 24°

Ref. 011203901

FUGA MEDIUM version is a family of tubular format projectors. They can be adjusted in their 350° vertical axis and in their 90° horizontal axis. All the components are housed inside the projector case, obtaining a clean design. The projectors distribute light to where it is most needed, since they can be directed in order to emphasise elements or uniformly distribute light. The LED RETAIL module is indicated for lighting garments, since its features allow the textures and colours of clothes to stand out. The 24° version is ideal as accent lighting in display cases, shop windows, restaurants and hotels.
