## ULM MESA BAJA

By Ramón Esteve

Like a shell perfectly poised over the floor, Ramón Esteve achieves the Ulm Daybed's design with refined and clean spherical geometry. Its circular form and grand scale adapt to each setting while its swivel feature permits it to effortlessly rotate on its axis. As with the rest of the Ulm collection, it is designed with the bare essential qualities of utility and function in mind, discarding all superfluous elements. As such, it is highly adaptable and easy to maintain.
