HANOI | WALL SCREEN DIVIDER

Cubic forms have long been incorporated in architecture: since ancient times, and now in cosmopolitan cities such as Hong Kong, Singapore and Dubai, buildings with this geometrical shape can be seen as well. This shape gives to the cities a modern feel that can be brought to the interiors as well. You can achieve that by including a wall screen divider like HANOI, made in matte brass and matte black lacquer. HANOI is inspired in the homonymous vietnamese city, where a cubic shape museum was built to tell the stories about its city and its people.
