INVITING is a white finish wall lamp with and orientable arm. It has an integrated regulatable LED that allows you to change the colour temperature (warm or cool) and the intensity of its light. You can regulate its light very simply by moving the dial located in the lamp's head: move it to increase or reduce the light intensity or turn it to one side or another to have a warmer or cooler light. It is manufactured in aluminium and highly resistant. Ideal for reading, studying or working.
