## NEIL | FLOOR

Neil floor is a reminiscent lamp of the golden years of space. Constructed of brass tubing using the classic method of bending the brass twice into a rounded oblong shape allows for bright and load casts of light holding spherical diffusers with a retro futuristic style of that era. It has 3 arms with adjustable lights creating a versatile piece giving a good periferic light range. The elegance of the continuous flowing center tubes gives a floating sensation to the whole piece, that would be perfect for a beautiful light living room or in a cozy lobby.
