

LAMINAR is a versatile system of tables whose formal identity is characterized by a refined, elegant, and timeless design, capable of blending seamlessly into work, contract or domestic spaces and contexts. The elegant structure of the tables, entirely made of aluminum, identifies the aesthetics of this collection that combines minimalism, lightness, and resistance.

The tables can be manufactured in three heights. The structure is available in a large selection of colours. The tabletops are available in a wide selection of formats, materials and finishes to facilitate their integration into different architectures and environments.
