

FUGA SMALL Black projector LED 12W 3000K 24°

Ref. 011100902

FUGA is a family of tubular format projectors. They can be adjusted in their 350° vertical axis and in their 90° horizontal axis. All the components are housed inside the projector case, obtaining a clean design. The projectors distribute light to where it is most needed, since they can be directed in order to emphasise elements or uniformly distribute light. With a 3000K color temperature, this black projector enables the creation of warm, comfortable environments. The 24° version is ideal as accent lighting in display cases, shop windows, restaurants and hotels.
