

XAIL is a collection of armchairs for lounge areas that are characterized by their comfort and a timeless design of essential elegance. A generous seat characterized by its relaxed and flowing shape can be combined with different bases to configure welcoming armchairs to rest and unwind.

XAIL seat shells are available with three upholstery options: standard, with horizontal stitching or soft. The armchairs are available with two frame versions: rodsled or four leg in steel with oak or upholstered armrests. The seats and structures are available in a wide selection of finishes that allow multiple combinations, facilitating their integration in multiple lounge or waiting spaces.
