We make designs to live them

Design furniture is the fundamental driving force behind all kinds of original, unique and elegant spaces. This indispensable piece for any room configuration often arises from concepts and design ideas of the most notable and experienced designers, in moments where the concept touches with reality to achieve a new creation.

In this new catalogue we want to contribute our particular way of understanding furniture, providing all kinds of facilities and possibilities of adaptation so that it is not a watertight compartment, but a window where we can exchange concepts and ideas that help us to learn and undertake once again this adventure that we have been enjoying for more than 20 years.

Our story began in Valencia (Spain) in 2000, with the illusion and desire to make unique, handcrafted and timeless furniture. Little by little, a company dedicated to the manufacture of designer furniture has been formed, and since then we have been accompanied by artisan techniques in all our designs and products.

Each of our pieces is made with the intention of awakening the most intrinsic sensations of the user and achieving optimum functionality within a specific space. For this reason, we take great care in everything we do, the materials, how we work them, each raw material, each process and each detail.

We use natural materials, sustainable from production to end of life, handmade, and we use them to create honest and sensitive pieces that allow us to help tell a story. We champion long lasting contemporary furniture to accompany us throughout our lives.

That is why we have ISO 9001 and 14001 accreditations that certify our sustainable production as well as FSC and PEFC accreditations that endorse our concern for the environment. We know the importance of combining quality with care and respect.

We are passionate about the way people and spaces connect through design. We are totally customer-oriented, always listening to their needs and trying to live up to them, we like to create solid and lasting relationships with all of them, and it is thanks to them that today, more than 20 years after our creation, we continue to move forward with the same enthusiasm as we did then.

Our reason for being

We work every day to create unique and lasting designs that will become design classics, by deeply developing their qualities in unique spaces where we give ourselves completely to the personalisation and refinement of our products.

To achieve our goals, we are always focused on giving free rein to all the concepts of our designers so that our products are not only formal, stylish and elegant designs but also provide that point of freedom, originality and personality of those who offer us their best ideas.

At Kendo we enjoy our relationships with all the people around us, whether they are suppliers, designers, sales people or interior design studios of the highest level. We know that our role is to cultivate and strengthen these relationships so that we can offer the user an unrivalled experience of design, elegance and versatility.

That is why our collections perfectly represent our concerns and tastes. At heart, they express all that desire to make originality and inspiration the most tangible mark of our activity, the desire to transform furniture design into something more.

We believe that great designs are meant to be experienced, which is why we have developed a website that allows you to view many of our projects all over the world. We collaborate on projects that are fully customised in terms of materials, measurements and finishes. We create products with high quality materials that manage to last for generations. Discover the collections designed to meet the most demanding requirements of contract and residential projects.

Design and talent

The success of Kendo's design comes from the hand of prestigious international designers. We are very proud to have all of them and their timeless designs that perfectly reflect our philosophy, as they share the same passion for workmanship, fine materials and timeless creations. Together we create designs conceived to last over time. Each piece is tested to meet the highest standards of strength, quality and sustainability.

PORCIONES

Variable and flexible

Miguel Milá

Miguel Milá, a great reference in Spanish industrial design, has collaborated with us in the re-edition of Porciones. A table made up of four triangular pieces, which can be used together

or separately to achieve multiple compositions. Noble materials, craftsmanship and detail in each process, is the summary of his impeccable timeless design that marks an unequalled trajectory.

The option of creating customised sets with noble materials makes it possible to easily adapt to the needs of any environment, whether in the home or in contract projects.

It is a variable and flexible table that allows for a variety of compositions and different uses.

Coffee table composed of two modules in Taupe lacquer finish together with an auxiliary complement composed of three modules in ash oak finish.

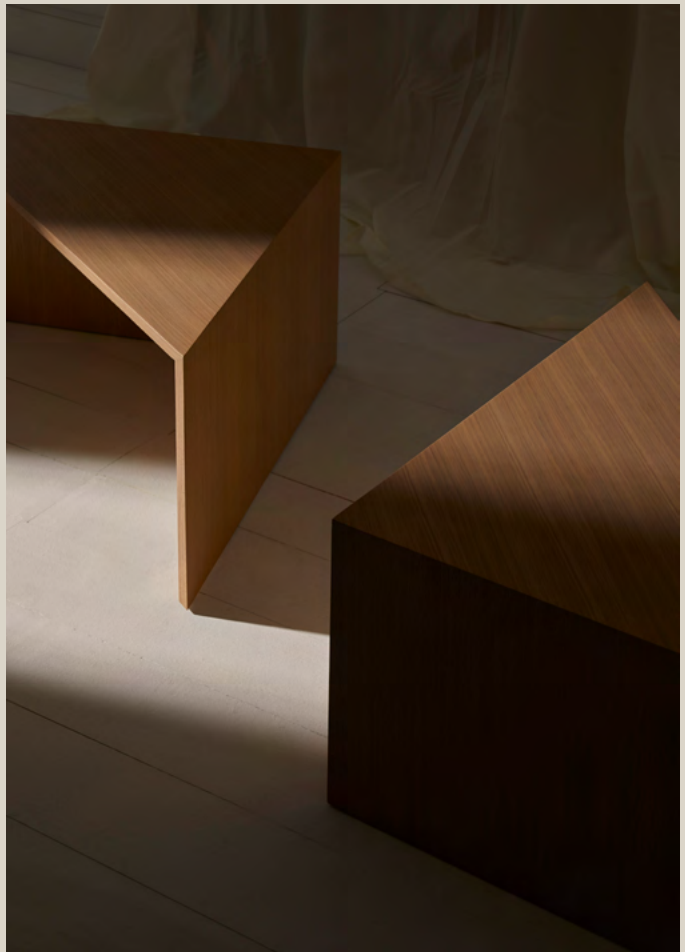

COMBINABILITY, FUNCTIONALITY AND SIMPLICITY

It is a timeless design, endowed with excellent proportions that create unique and personal spaces thanks to the multiple combinations of its pieces and its different finishes.

On these pages, different combinations of the Porciones table, in different finishes in lacquer, natural oak and ash oak.

*On these pages, different combinations of the
Portions table, natural oak finish.*

● Natural oak

Porciones is a piece created entirely through a handcrafted process that takes into account the quality of the materials and finishes.

On this page, coffee table composed of two modules in ash oak finish next to a coffee table composed of four modules in graphite finish.

TOC

Personality

Francesc Rifé

The Toc collection bears the hallmark of Francesc Rifé. It stands out for its minimalist influence, respect for craftsmanship and a geometric proportion that defines its identity. They are small tables with their own personality that bring the necessary warmth to any space.

On these pages, Toc base in ash oak.

*On these pages, Toc combination,
different finishes in lacquer and marble.*

COMBINABILITY

Toc was created to create a visual play in space. A unique piece that stands out for its T-shaped base, with its micro-textured slate-coloured bottom. The designs are available in three sizes, and all three work well together in a central space, as well as on their own in any corner of the room.

Elegance and
at its p

d adaptability
purest

*Sa Font Seca residential development, Mallorca (Spain).
Project by Negre.*

The collection is personality and warmth, which is why it adapts to all types of environments. It includes the typology of bedside tables offering a unique character combined with maximum functionality.

The option of creating personalised sets with noble materials makes it easy to adapt to the needs of any environment, whether in the home or in contract projects.

*Francesc Rifé nightstand with ash oak finish
from the Toc collection.*

Toc is synonymous with originality and elegance. Its combination of planes in its structure as well as its circular top gives it a formal and versatile style that allows it to adapt to a wide variety of spaces and rooms, always contributing its handcrafted essence.

Available in a wide variety of finishes and sizes, the Toc collection allows total customisation to suit the needs of the user and offers alternatives and possibilities to make your environment a space of integral design.

On this page, Toc in different sizes and finishes.

DUO

PerezOchando

The Duo collection was born from the ambition to create a piece that is visually light and, at the same time, functional. The PerezOchando studio is known for playing with interesting shapes in its designs, and the inspiration for this

collection, based on the figure of the Japanese hashi chopsticks, leaves no one indifferent. It is a design with a balance between elegant and delicate.

The collection concentrates
functionality and versatility.

IDEAL FOR HOME AND CONTRACT USE

Duo adapts easily to any environment, both in the home and in contract projects. The top is available in various finishes, lacquer, oak, walnut, black glass, statuary ceramic and marble, to adapt to any space.

The top is available in white and black marble for the most most unique spaces.

DUO IN ALL TYPES OF ENVIRONMENTS

The Duo collection is characterised by its ease of adaptation to all types of environments, from hotels to office spaces, including home and contract, Duo blends in perfectly with its surroundings, offering personality and elegance in all its sizes.

In these pages Duo table with marble top and black microtextured structure.

Duo, individually or together

The collection offers a wide range of possibilities, working individually and together. Duo allows numerous customisation options thanks to its wide variety of finishes.

On the next page, Duo in marble top and fog top finish, both in black microtextured structure.

DESIGNED FOR ALL SPACES

“The Duo table blends design and craftsmanship, making it an extraordinary piece that transforms spaces into unique and timeless places.”

The Duo table is the perfect example of the sustainable and responsible design that we at Kendo have always taken care of sensitivity from the very beginning. It is a solution that, from the very beginning of its creation, has always had its own adaptability, personality and formality. The wide variety of finishes on the top allows for numerous unique

configurations that offer all kinds of variations in order to adapt perfectly to any type of space, including hotels, residential, offices, restaurants etc. The visual play offered by its legs, as well as its great versatility as a whole or on its own, make it a piece of industrial design destined to become an aesthetic icon of timelessness.

IDRA CONVEYS ITS ESSENCE

Idra offers a wide variety of materials and finishes in the top together with a metallic structure that can be in black or white thermo-lacquered lacquer. Its versatility also lies in the visual power of the table in different sizes, either to be placed as a whole or individually. Always showing an original, elegant and clean design that gives the space a touch of good taste and tranquility.

On this page, coffee table with stone lacquer finish and white microtextured thermo-lacquered structure together with side table with white lacquer finish and white microtextured thermo-lacquered structure.

On these pages, bedside table with mist lacquer finish and black structure (right) and also mink and ocean lacquer in different sizes with black structure.

IDRA IN INTERNATIONAL PROJECTS

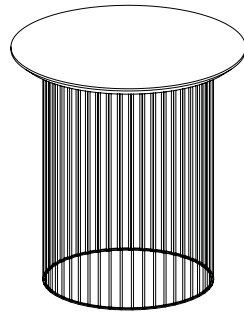

Idra has become a benchmark and indispensable element for numerous national and international projects, partly because Idra's finishes provide great versatility to adapt the table to any type of installation. An example of the exclusivity that Idra can offer is the use of the top in compact slate, which helps to enhance the environment and blends in perfectly with the surroundings.

On the left page, Idra tables in the Le Loft project for Apartment 2 Lansell Road, Melbourne (Australia).

TOTEM

Gabriel Teixidó

Totem is a TV stand with a 360° rotation. Its purist lines allow it to be placed in different spaces. It comes in several sizes with a functional and simple system for collecting cables.

It comes in several sizes to adapt easily to a home, office or hotel. In addition, it can rotate so that the television can be enjoyed comfortably in two different areas within the same space.

Wide swivel range for comfort and versatility

On these pages, Totem in the Paradores project, in the Parador de Cádiz (Spain).

Totem offers great comfort in all kinds of spaces. Its swivelling options and the wide variety of finishes it offers make it a totally indispensable piece of furniture in terms of elegance, refinement and timeless design.

On this page, profile view of Totem, and some of the finishes, forest, sand and ocean.

ELEGANCE AND DESIGN, TOTEM

In addition to the dynamism offered by the Totem swivel, it houses the cables inside so that they are not visible and can generate an undesired visual effect. Its shelf in the lower area guarantees absolute comfort as it allows all kinds of objects to be placed on it, thus facilitating connections and providing well-being.

On these pages, detail in Totem's turn.

*Totem in Hotel Neptuno in
Valencia (España).
Project by Espai Guixeres.*

On this page, a visual guide to the Totem turn in sand finish.

Balance, elegance
and versatility.

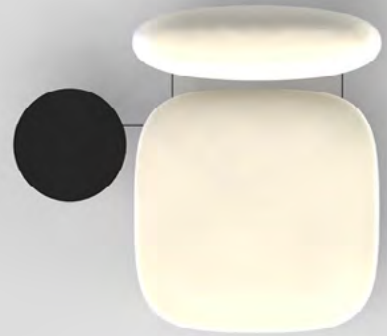

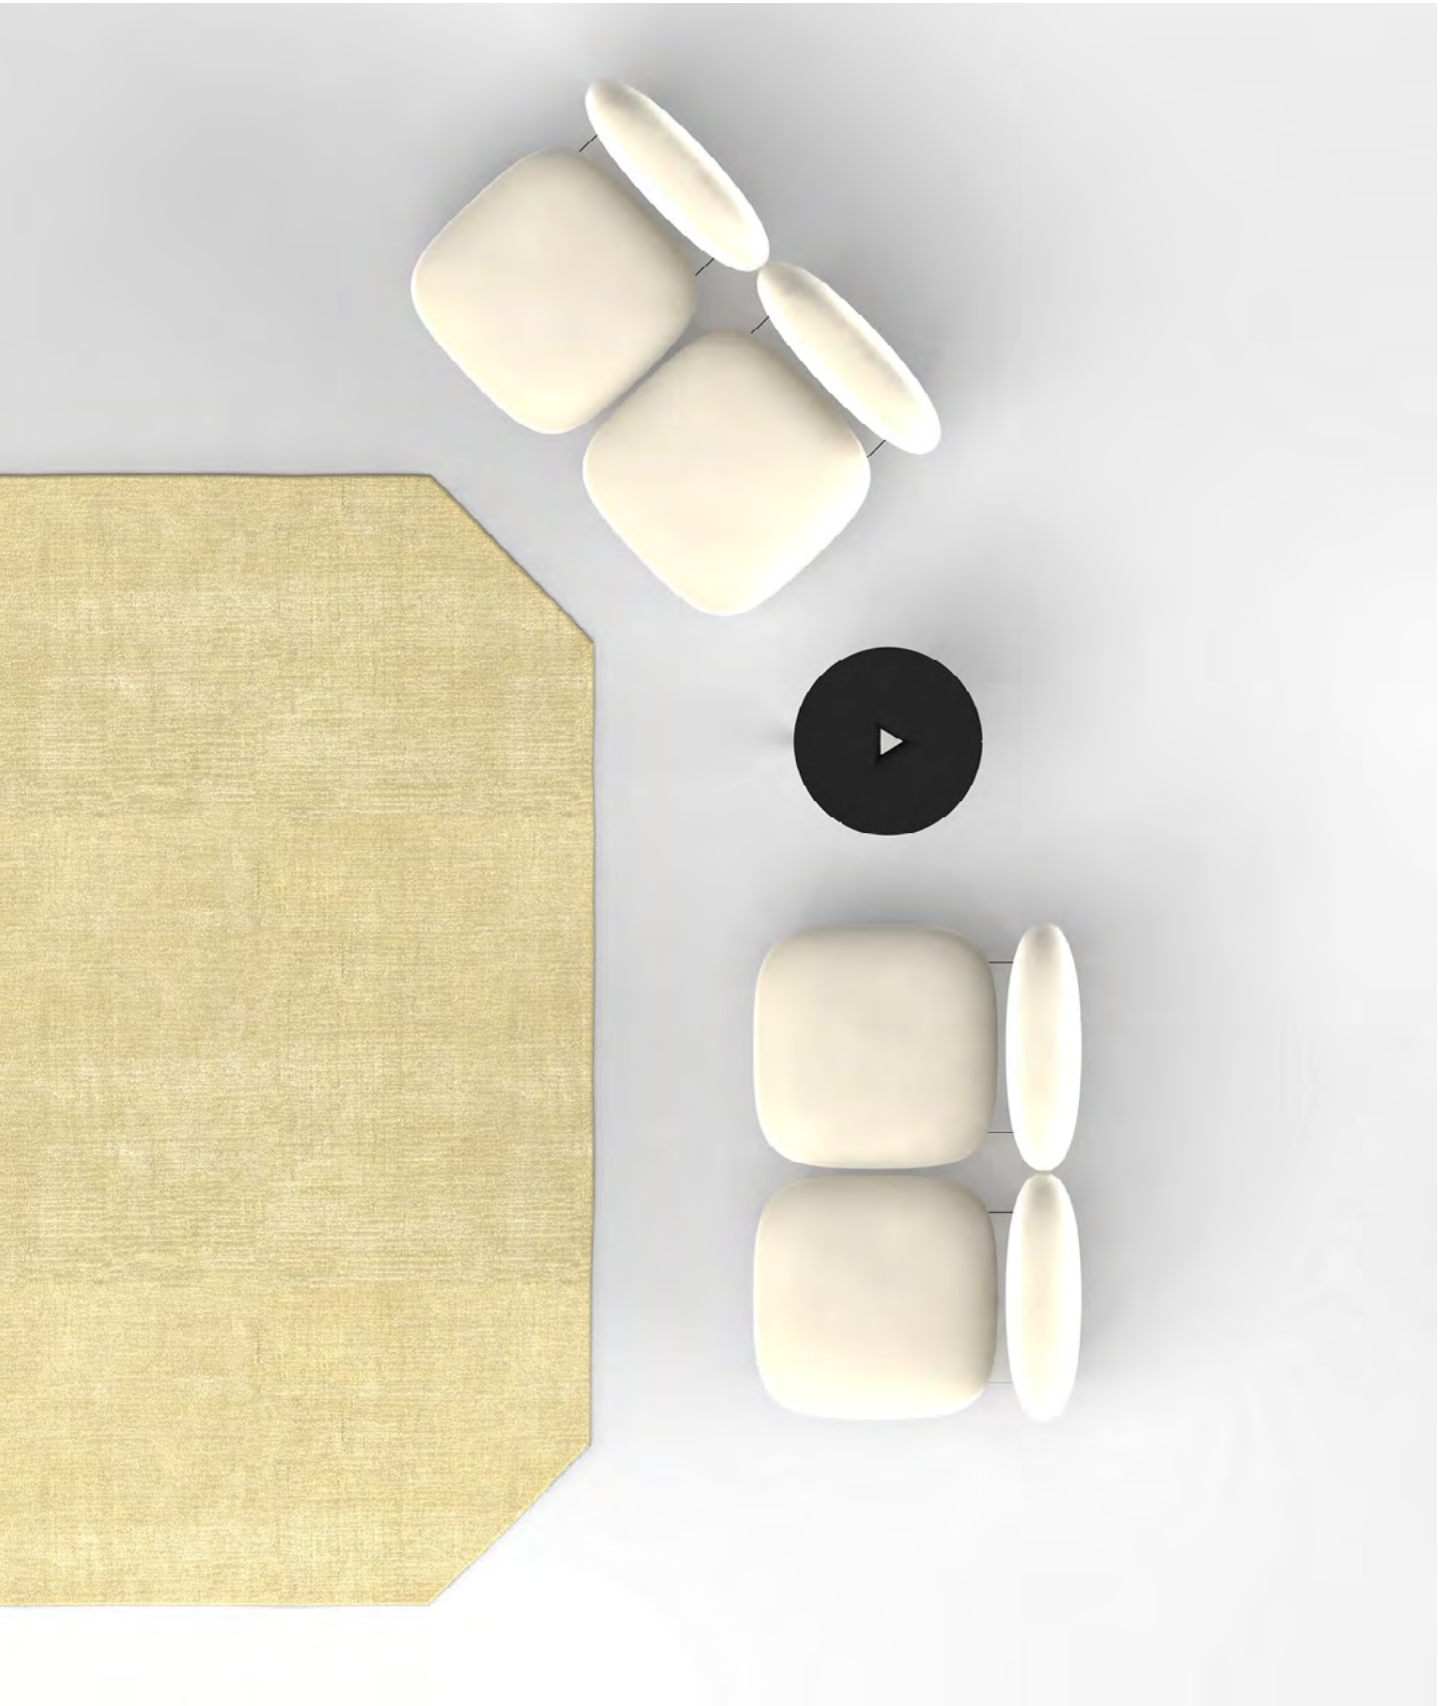

REAR SIDE

Totem incorporates a removable panel at the back that allows cables to be hidden inside so that only what is visually favourable in the space is visible.

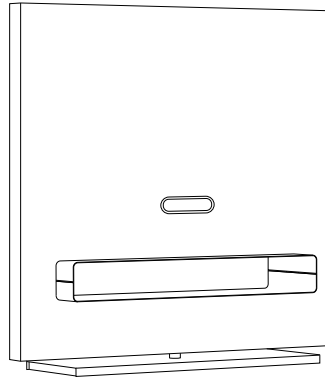

VERSATILITY AND DISTINCTION

Totem is capable of adapting to all kinds of spaces, whether they are offices, waiting rooms, management offices, suites... Always offering the necessary versatility to create several different spaces in the same room.

RITA

Elegance

Antoni Arola

The Rita table transports us to a geometric universe of straight lines and planes that connect in a surprising way with the architectural spaces of its surroundings and reveal a wide range of possible uses. Its elegance in simplicity provides a unique design solution that blends in with many types of rooms and interiors.

*Rita at C93, Mallorca (España).
Project by Perello Mobles.*

*Residential at Puerto Andratx, Mallorca (España).
Interior design by Estudio Vidal Piñeiro.*

Its exact proportions make this table a piece that works perfectly as a whole or individually. Always giving the environment a touch of distinction and design that perfectly guarantees the timelessness of the furniture.

*Hotel Neptuno, Valencia (España).
Project by Espai Guixeres.*

*Biniatru House, Palma (España).
Project by Negre.*

DESIGN AND ELEGANCE

Thanks to its particular and elegant design, Rita is the ideal element to place in the centre of the room, as it brings together and enhances the originality of the environment, creating a perfect synthesis. It is a table with a sober, honest and timeless character that adds a unique touch to the room with the play of materials between the structure and the top.

*Rita Table in Gros, Donosti (Spain).
Project by Nuvan.*

In the Rita collection, the visual of transparency is observed together with the straightness and simplicity of flatness. With its intrinsic natural elegance and its different sizes and finishes, it becomes a unique piece of great aesthetic value.

The tables are composed of a thermo-lacquered metal structure in micro-textured black, a base and vertical sides, which can be customised in lacquer, walnut or oak, and a grey smoked glass top.

Rita Console

The Rita console is one of the great pieces of this collection. Versatile, elegant and apparently simple, shows with its straight lines and planes that the geometry integrated in the product is one of the keys to success, always offering adaptability and good taste to spaces.

Timeless ELEGANCE

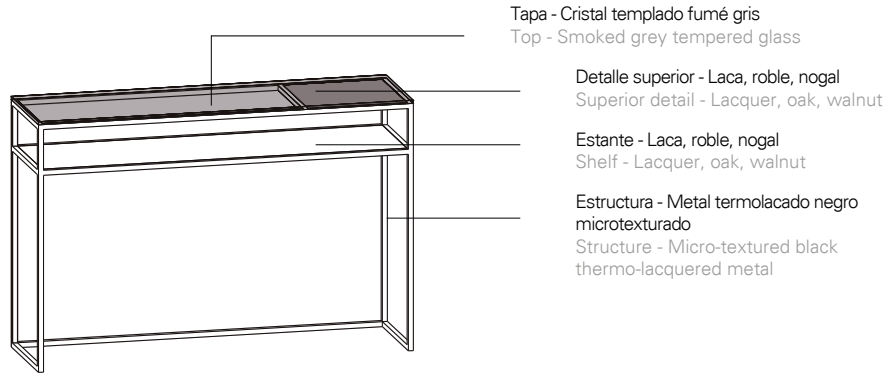

The console is an element that combines practicality and decoration in its own concept. Rita is a functional console that at the same time draws attention to its design and the quality of the materials, treated from the beginning of its processing in a handcrafted, natural, sustainable and responsible way. The wide variety of finishes of this console allows it to be incorporated into all kinds of environments and scenes where the design of a piece that transmits transparency, simplicity and balance provides a point of exquisite and timeless elegance. The Rita console is not just another element of an exclusive collection, it is a way of understanding the environment, the design, the practicality and the way of being of the furniture, it is a passion, that from the beginning of its creation has been carved to become what it is today, a classic.

It is a distinguished piece that raises the level of any environment. It is a versatile and easily adaptable proposal.

Rita desk

The Rita desk is one of the essential components of this product family. Its lightness, transparency and shelf make it a unique working space where organisation and comfort are the prerequisites for success.

On these pages, Rita desk with black lacquered shelf and black microtextured thermo-lacquered structure.

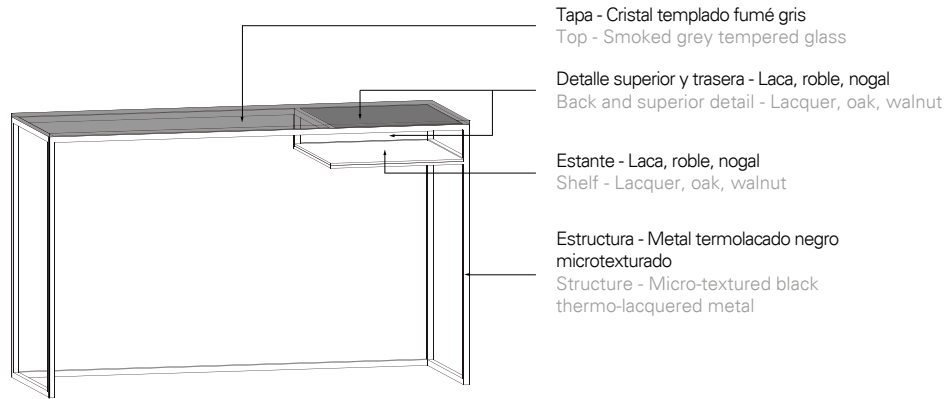

Rita offers the possibility, to make the environment a whole

Its conjunction with the rest of the pieces in the collection is maximum, giving the environment the sensation of being a whole, of which the different parts offer their personality, dynamism and substantial balance.

Rita Bookcase

The bookcase is design, elegance and mastery in a single piece. The finesse of its shelves together with simplicity, which is the essence of this collection, offer style and balance to one of the indispensable products in terms of organisation, exquisiteness and adaptability.

KEY IDEAS

The Rita bookcase expresses the simple elegance of timelessness in a light vision of sober furniture, which allows it to be placed in contexts and environments of all kinds.

Designed by Antoni Arola, as well as this entire collection, its lines and planes convey the poetic vision of the most original and magnificent design, always transmitting calm and tranquillity with its leading morphology. The wide variety of finishes allows absolute personalisation of an essential piece of furniture where design, craftsmanship and elegance are an indivisible whole.

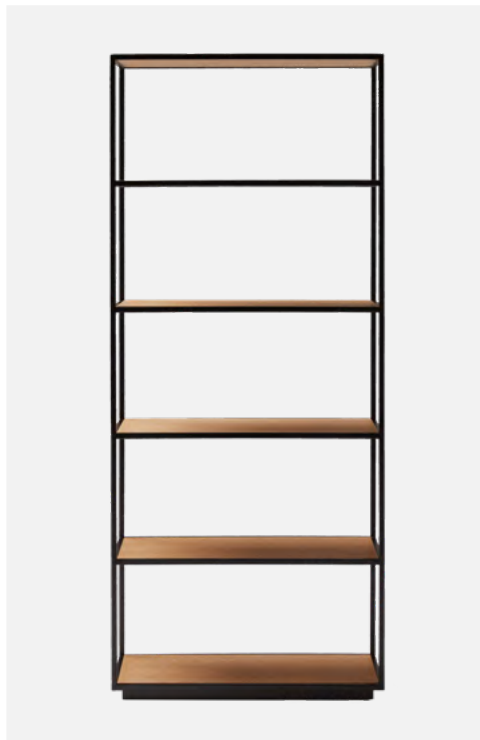

*On this page Rita bookcase, walnut finish,
next to Rita desk.*

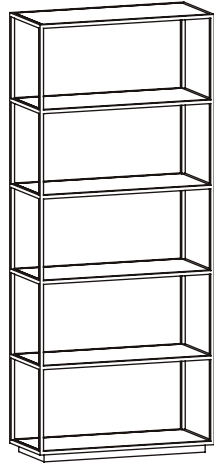

Always evoking tranquillity and good design, Rita gives us the combination of its parts to express in the environment a unique, poetic and simple whole.

RITA LITE

Antoni Arola

The Rita Lite coffee table, an extension of the Rita collection, stands out for its balance of visual lightness. Thanks to the architecture of its structure and the finishes it offers, the table brings elegance to any environment.

RITA LITE, VARIETY IN VERSATILITY

The Rita Lite collection allows an easy integration of the furniture in any interior thanks to the innumerable combination of its finishes. Therefore, offering versatility and customisation to the user's taste, always standing out for the simplicity of elegance and the integration of all the elements in one.

Coffee table with black marble finish, black lacquer and black microtextured thermo-lacquered structure.

The Rita Lite collection, characterised by its formal and elegant style, is composed of a top available in different finishes such as grey smoked tempered glass or marble, a structure in black micro-textured thermo-lacquered metal and a base in lacquer, oak or walnut finish.

Rita Lite,

BECO

Luis Arrivillaga

The essence of the present and the past are reflected in Beco, a desk with a warm and welcoming look, in which every detail is designed to feel the beauty of its materials. Its lift-up top reveals an interior space with a highly functional sliding tray.

● Taupe

Beco adapts perfectly to an office space or a hotel room where a homely feel is sought after. A very practical and original solution that thanks to its natural finishes brings warmth to the room. The desk is available in two different sizes,

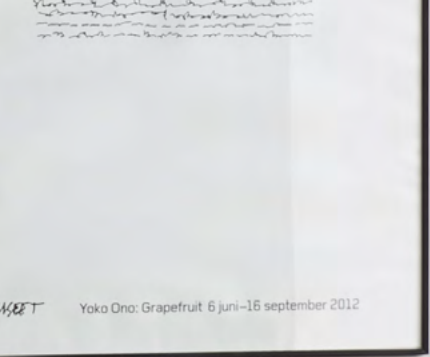

making it very versatile for any type of room. It offers the possibility of being fixed or having an elevating top, adding a useful storage space, with a sliding tray inside to organise and store work objects.

● Graphite

On these pages Beco desk in Ash Oak finish.

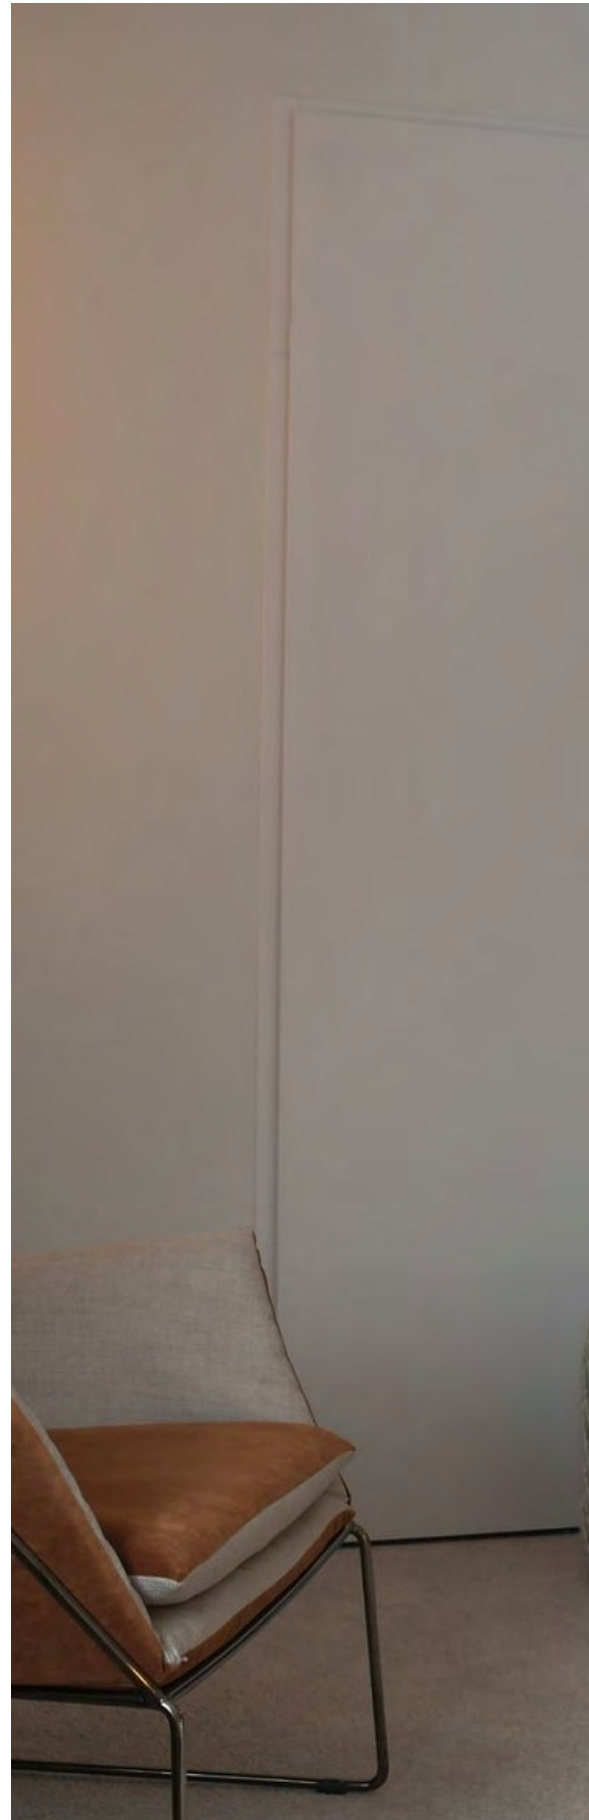

Beco,
unique,
practical and
original

FUNCTIONAL ELEGANCE

Beco is the perfect example of functionality and elegance. Its simple shape as well as its incredible practicality make this piece an indispensable element in numerous projects of all kinds, both nationally and internationally.

EXO

PerezOchando

The EXO collection consists of tables, consoles and television furniture. It is characterised by a metal structure that forms an essential part of the design. Its perfect combination with the materials of the top and the shelf make for an elegant and unique ensemble.

EXO guarantees total customisation of your design to create exclusive, made-to-measure tables. Its different shapes, morphologies and sizes as well as the number of finishes available for shelf and top make it the versatility par excellence.

In these pages EXO coffee table in toasted oak top and stone lacquer shelf finish.

*Mallorcair Private Aviation Terminal,
Mallorca (Spain).
Project by Marga Comas Interior Design.*

EXO is fundamentally characterised by its versatility and originality. The immense number of combinations and finishes make this design a piece that blends in perfectly with all kinds of environments and settings, always adding its own particular touch.

Selected for projects all over the world, EXO guarantees quality, stability and prominence in the centre of any room thanks to its rounded tops and light legs. It stands out for the balance of its forms and raises the level of the environment.

*Mallorcair Private Aviation Terminal, Mallorca (Spain)
Project by Marga Comas Interior Design.*

EXO tables are available in different finishes such as oak, walnut or lacquer together with their structure in black micro-textured thermo-lacquered metal.

EXO auxiliary console

The finishes of the top and the shelf make it easy to adapt EXO both in the home and in installations. A very original and practical solution that creates the personality of the room.

Side console with ash oak finish, black lacquered shelf and black thermo-lacquered structure.

INTEGRATION AND PRACTICALITY

Its perfect mimicry with the sofa and the environment make this console table the perfect element to separate spaces within the same room and bring elegance and a touch of good taste to the whole environment thanks to its simple shapes and its appearance of light and original furniture.

Side console with light oak finish, light oak shelf and taupe thermo-lacquered structure.

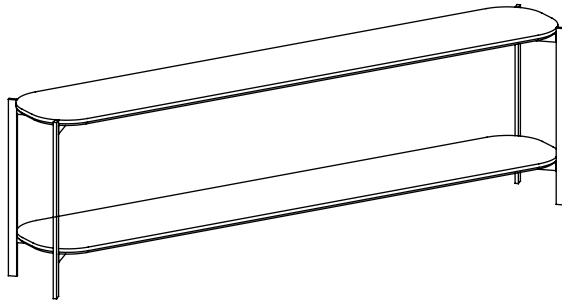

Unique SPACES

The console is an example of the variety and possibilities offered by a great design such as EXO, taken to other types of product such as auxiliary consoles. With its practicality, elegance and design, the EXO auxiliary console is an indispensable piece of furniture. The wide variety of finishes of this console table allows it to blend in with all types of environments and spaces where the design perfectly conveys the distinction of spaces. Its dimensions make it the ideal complement to be placed behind the sofa, offering comfort and practicality in total harmony with the originality of the collection.

EXO ROUND

PerezOchando

The EXO Round coffee table collection is characterised by its simple elegance and functionality. Its perfect combination with noble materials creates an elegant and distinguished ensemble.

Side table with white marble and tile lacquer finish.

IDEAL FOR ALL TYPES OF SPACES

The EXO Round table offers customisation possibilities that make it a unique and timeless model. The wide variety of finishes and sizes makes this table adaptable to all kinds of spaces.

On this page, EXO Round table in white marble and ash oak finish (top). EXO Round table in ash oak and graphite finish (below).

IN DETAIL

In our origins, our intention has always been to create tables that can bring great personality to the space where they are placed, tables that can totally blend in with their surroundings, not only with the rest of the furniture, but also with small details such as carpets, lamps, decorative elements, etc. That is why we are proud of our EXO Round table, which meets these requirements to perfection while guaranteeing quality and elegance in all its finishes and sizes.

NARUK

Vicente Gallega

Naruk is a collection of consoles whose apparently simple lines reveal a highly suggestive play of inclined planes. The console has two swivel trays concealed in the lower part of the top.

KENDO

NARUK

The presence of Naruk in entrances and corridors makes the difference, it stands out for its easy integration in both residential and installations, always providing its exclusive touch of particular elegance without claiming excessive prominence. It is a unique, simple and practical solution.

KEY IDEAS

The Naruk console is a design based on simplicity, geometry and a play of planes, providing a unique visual effect that combines perfectly with the opening of the drawers it incorporates.

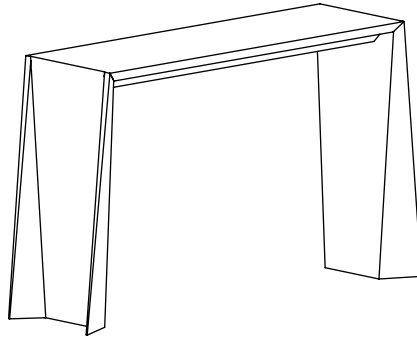

This formulation by Vicente Gallega is a unique piece that presents the simple and technical vision of a console with a lot of personality, simple and sober. Its classic formality, as well as technical innovation and a wide variety of finishes make Naruk the perfect example of the versatility of elegant furniture.

Naruk desk

The Naruk desk has a perfectly studied arrangement of the angles and folds that make this piece not only cover the practical function but also make it an object of easy coexistence in different environments at the same time that it is an aesthetic icon.

Naruk has has a wide variety of finishes

The desk integrates perfectly in its minimalist set a pull-out drawer, with a useful hollow of 65x32x4cm.

Through its original combination of planes, Naruk provides the perfect visual play that conveys elegance, tranquillity and calm in all its finishes.

Naruk table

The Naruk table takes us to a different concept, creating a balance that evokes subtlety, character and simplicity. Its seemingly light set of inclined planes makes it blend in perfectly with its surroundings.

KEY IDEAS

The Naruk table, designed by Vicente Gallega, combines all the characteristics of the collection, offering a simple and minimalist solution for all types of environments.

This table perfectly synthesises the magnificent collection developed by the industrial designer Vicente Gallega. The Naruk table is the perfect summary of the play of inclinations and planes that can be glimpsed throughout the entire collection, giving it that unique touch of timeless, elegant and classic furniture that is a constant feature of this family.

Naruk table: Functionality, beauty and style.

NARUK OFFERS ELEGANCE IN ALL ITS SHAPES, SIZES AND FINISHES.

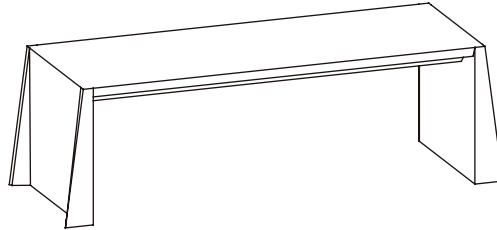

The coffee table features noble materials such as walnut, oak or lacquer to bring warmth to the space.

In this page, Naruk table in different finishes.

MIKA

Functionality

Yembarastudio

Collection of tables that stands out for its combination of materials and finishes on the tops to achieve unique pieces. The Mika table is a perfect balance between functionality and uniqueness, allowing it to adapt to numerous environments and architectural design spaces.

On this page, coffee table with tops in walnut and olive lacquer finish, black microtextured thermo-lacquered structure.

The option of creating customised sets with noble materials makes it possible to easily adapt to the needs of any project.

FUNCTIONALITY AND ADAPTABILITY

The side table is based on the design of its tubular metal structure, generating two heights and a visual play from different perspectives.

On this page, coffee table in mist lacquer and light oak and side table in ocean lacquer and light oak.

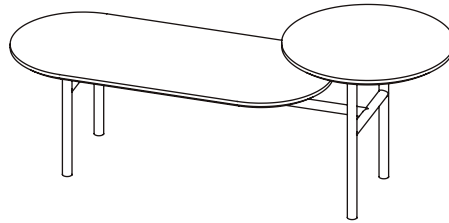

It offers a wide variety of materials and finishes on the tops such as walnut, oak and lacquer, which provides a great versatility to adapt the table to homes, hotels and offices.

ANT

Francesc Rifé

Its elegance and uniqueness together with the nobility of its materials place this collection at the highest level of our products. Due to its versatility, it fits both in the living room and in large rooms of the contract sector.

*On these pages, Ant at Dubai Internet City HQ, Dubai (UAE).
Project by The Total Office.*

ANT, BALANCE.

Ant is a versatile table, suitable for numerous contexts and environments, always providing the distinction and elegance that characterise it, blending in with its surroundings while offering personality, design and balance.

Ant, distinction and elegance

The interplay of the marble with the structure of the table and the metal profile creates an unforgettable aesthetic appeal that expresses the quality and sobriety of a unique design. In addition, the flying effect of the top gives it the sensation of lightness and harmony that is exclusive to a work that is destined to play a leading role in any environment.

Metal profile in brass finish.

Variety of finishes on the structure.

Fully customisable.

On these pages, Ant with white marble top.

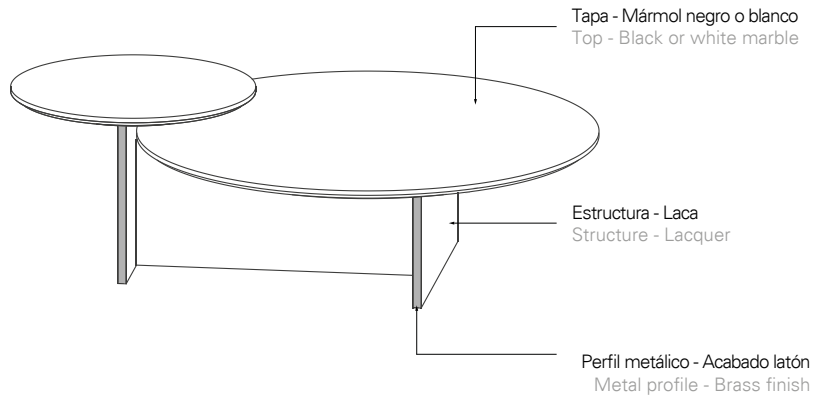

On this page, ANT table, in a project by Rubio & Ros, for a residential building in Valencia (Spain).

VARIETY IN COMPOSITIONS

It has a wide variety of finishes that allow it to be customised to the user's taste. Its marble tops together with the metal profile finished in brass and the immense variety of lacquers for the structure offer numerous options for all areas.

ANT LITE

Francesc Rifé

The Ant Lite coffee table, an extension of the Ant collection, stands out for its balance between delicacy and uniqueness. Thanks to the architecture of its base and the refinement of the marble top, it is a table that brings elegance to the room.

Ant Lite,
sobriety,
elegance,
delicacy.

Ant Lite is a coffee table with a circular top in white or black marble. A practical and distinguished solution for a special interior design.

Ant and Ant Lite,
elegance in essence.

Structure: Graphite

The Ant and Ant Lite collections are the perfect example of a unique, elegant and timeless table. The wide variety of finishes offers endless possibilities to fully customise the design and adjust it to the surroundings. The metal profile of the structure perfectly marks the distinction and good taste in a table that raises the level of the environment with its mere presence. Whether in the original Ant format or in the classic and sober simplicity of Ant Lite, these collections are destined to add unique value and make the environment a unique and exclusive setting.

VILLA

Envelope

OrtegaGuijarro

The Villa collection generates a different visual play transmitting an elegance that raises the level of any space. Villa is born with an aesthetic balance through shapes, achieving a particular beauty.

The enveloping shape of its legs and its poetic transparency make it a design that generates a unique visual effect that fills any room with originality and good taste.

On this page, coffee table with top in transparent glass finish and structure in microtextured black thermo-lacquered metal.

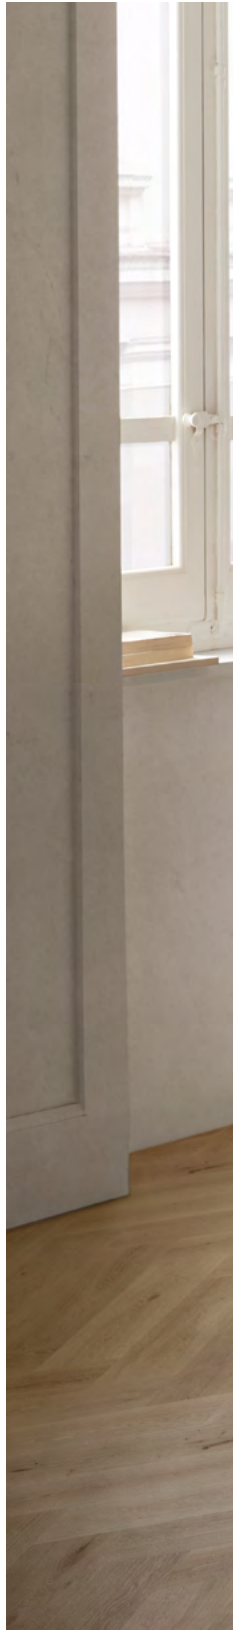

The essence of the Villa coffee table is its metallic structure in black thermo-lacquered lacquer, stripes that intertwine between its legs giving the sensation of wanting to embrace each one of them.

The Villa collection is elegance and aesthetic balance. It offers a wide variety of finishes so you can personalise it to your taste.

On this page, coffee table with top in glass finish and side table with top in grey smoked glass finish, structure in black thermo-lacquered metal microtextured on both.

PLAT

Antoni Arola

It is a collection of tables in which a subtle circular imprint on the top acts as a counterpoint between its predominantly straight lines. It has an extractable drawer in one of its laterals and castors in its bottom part.

*Locke At Broken Wharf, Londres (Reino Unido)
Project by Clippings.*

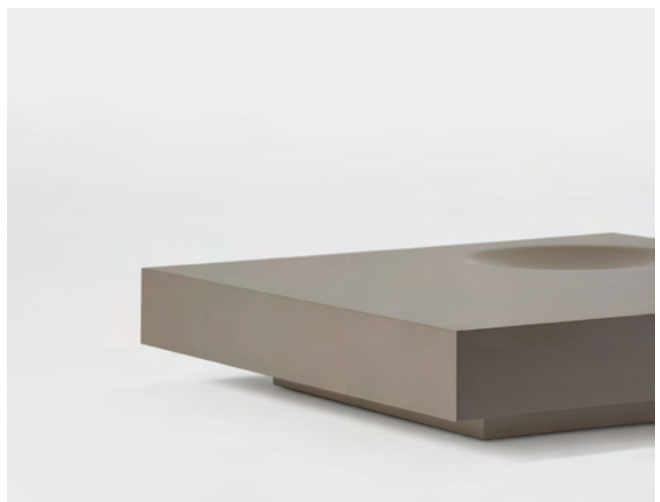

Plat coffee table in graphite lacquer finish.

INTEGRATION AND PRACTICALITY

The table is made of lacquered MDF and includes a side pull-out drawer and castors, which can optionally be replaced by a plinth. The height of the table can be modified. The Plat coffee table brings a note of sympathy and coherence to any space. It is a piece that integrates easily in homes, offices and hotels.

PLAT

On the right page, Plat coffee table in graphite finish in Costa de la Calma, Mallorca (Spain), project by Marga Comas Interior Design.

INDIVIDUALLY OR IN COMBINATION

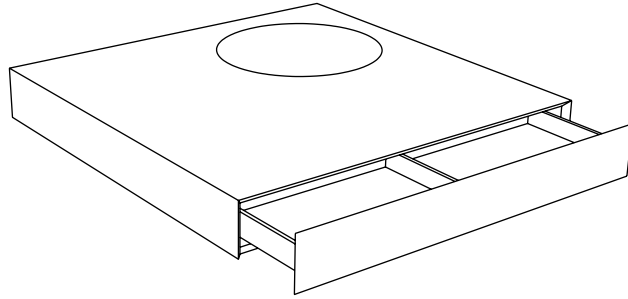

Plat offers the possibility of displaying all its elegance individually as well as in combination playing with the different finishes available as well as the different sizes presented. Plat is the perfect coffee table, individually or in combination.

*En this page, coffee table and side table Plat in mink and white lacquer finish at CASA_DCOLORES in Marratxi, Mallorca (Spain).

YOHSI

Discoh Design

It stands out for its enormous versatility, capable of adapting to any space and lifestyle. The multiple combinations of materials make it possible to create a table for every type of environment.

*Ecole 42 School, Abu Dhabi (United Arab Emirates).
Project by The Total Office.*

YOSHI: THE VERSATILITY SOLUTION

The Yoshi collection is undoubtedly one of the most versatile and functional collections as it adapts perfectly to all types of environments, blending in with its surroundings and adding a personal and elegant touch. Selected in numerous projects all over the world, Yoshi has become an essential for interior designers with different styles who have discovered the essential value of this table in their spaces.

*On the left, Yoshi at the Hotel Meliá Jardines del Teide in Tenerife (Spain)
Project by GPY Arquitectos.
On the right, Yoshi at the Hotel Tigotan Lovers & Friends Playa de las
Americas in Tenerife (Spain).*

*Coffee table with milk lacquer finish and black
microtextured structure.*

Different sizes,
same design.

FINISHES AND MEASUREMENTS

The tables can be customised in lacquer, walnut, oak, grey smoked mirror, bronze smoked mirror, black glass or statuary ceramic and the metal legs can be in thermo-lacquered black lacquer, lacquer in other colours, chrome or brass. Yohsi provides all kinds of options, with its finishes and different sizes that make it a versatile and original piece. The customisation of this design is total, thus giving a touch of good taste that gives the extreme functionality an aesthetic and elegant formality.

*Yohsi in Casa Öttel in Barrika, (Spain)
Project by IN56.*

YOHSI, CUSTOMISABLE AND ADAPTABLE

The unique legs of the Yohsi table, as well as the effect of its finishes are the perfect combination in terms of product customisation and total adaptation to projects. Yohsi is a unique design, spread all over the world in numerous rooms of all kinds, always providing an aesthetic point wherever it makes its presence felt.

YOHSI ELLIPTICAL

Discoh Design

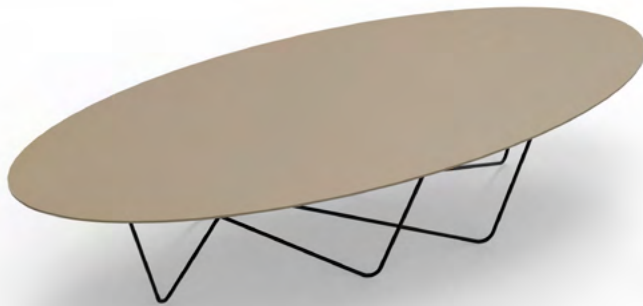

Yohsi Elliptical is a collection of coffee tables, composed of an elliptical top supported by a lattice of curved metal rods that are the essence of the piece.

*Coffee table with graphite lacquer finish
and black microtextured structure.*

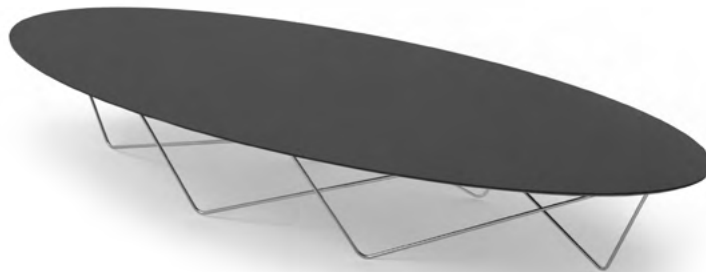

● Taupe

Yohsi elliptical is an extension of the Yohsi collection, with the same set of legs and the same adaptability and versatility in terms of finishes. Its original elliptical shape gives it the ability to be placed in central spaces providing dynamism as well as balance to the environment.

Available in two sizes, Yohsi elliptical is the perfect example of customisable design furniture that takes the environment to another level. Its shape, its legs, make Yohsi elliptical the perfect piece for all types of contract spaces, from hotels and offices to residential and restaurants.

● Black

Yohsi and Yohsi elliptical,
versatility in essence.

Yohsi Ø 120 cm

Top: Ash oak.
Structure: Microtextured black.

Yohsi Ø 55 cm

Top: White Lacquer
Structure: White micro-textured white

YOHSI AND YOHSI ELLIPTICAL

Yohsi and Yohsi elliptical are two expressions of the same design concept. The slenderness of the legs generates a unique visual effect of lightness and dynamism that at the same time maintains an intrinsic authentic touch of elegance and originality, transmitting the same essence in all its versions.

Its different sizes, as well as the immense variety in terms of finishes, make Yohsi the ideal collection for both combination and individual use. That is why our Yohsi collection is an indispensable part of numerous projects of all kinds both nationally and internationally.

TEMPS

Vicente Gallega

The Temps collection stands out for its soft, continuous and insinuating shapes that create an elegant, timeless piece with personality. It has been worked with noble materials such as solid beech wood and marble, providing craftsmanship in the elaboration of the piece.

On this page, coffee table with black marble finish and ash stained beech structure.

The table is composed of a marble top and a structure in beech wood. A very functional solution that brings great warmth to projects.

SOPHISTICATION AND WARMTH

Due to its characteristics in terms of design, variety of finishes and sizes, it is a very versatile piece. Its rectangular top version is ideal to be placed in central spaces where it can provide all its warmth and sophistication, offering a different touch with its reminiscence to the past within the design.

On this page, Temps coffee table with white marble top and natural beech structure.

- Black marble
- Natural beech

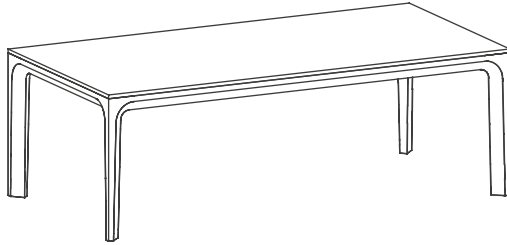

Temps combines different materials and finishes to offer different design solutions. Creating unique spaces that allow the table to take on a special, stylish and essential role.

It is a reminiscence of the past within design. Its characteristics in terms of design and measurements create a very versatile piece.

VAN

Francesc Rifé

The Van collection stands out for its great woodwork. The solid wood structure gives it the necessary solidity and transmits the warmth of its materials. Easily accepted both in the home and in contract installations.

In these pages, Van side table with black ceramic top and walnut legs. Van side table with black ceramic top and walnut legs.

*Van in Ricard Camarena Restaurant in Valencia (Spain).
Project by Francesc Rifé.*

Elegance and design

It is a collection that, thanks to its size, provides numerous possibilities to create different and unique spaces.

Thanks to the combinations of colours and materials, it is a piece that fits perfectly with decorative environments.

ORIGINALITY AND VERSATILITY.

Van is the perfect combination of classicism and originality, being able to adapt perfectly to spaces of different styles and tastes. It can be combined thanks to its different sizes and also works individually. This collection provides numerous possible options to make any type of space a dynamic and pleasant place.

*Van at LinkedIn's offices in Dubai (UAE).
Jalapeno project.*

*On this page Van at the Saddle Club,
Melbourne (Australia)
Sweedesign project.*

With extreme care in the treatment of materials, the solid structure brings simplicity and solidity to an adaptable table.

KENDO

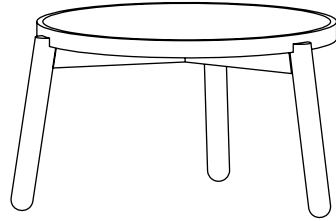

Van en Can Rafalet, Ibiza (España).

The variety of sizes and its own versatility make Van a table that works together and on its own.

TRAZO

PerezOchando

Visual lightness, personality and strength are the characteristics of the Trazo table, a perfect table that brings freshness and modernity to home or contract spaces, adapting through its neutrality to any decorative style of its surroundings.

Trazo is a table with apparently simple lines that reveal a very suggestive game through the encounters between the top and its legs.

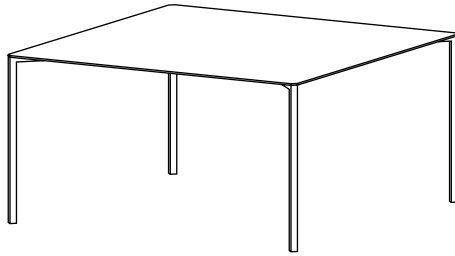

MÉS QUE DISSENY STUDIO

Trazo is a versatile proposal that offers a game of elegance and simplicity in any room.

VERA

Serafín Redondo

Vera is a coffee table with a characteristic volume, where it is possible to combine the lacquer of its exterior finish with different finishes in the interior recesses.

*Vera at the Mirador de Valencia, Valencia
(Spain).
Project by Vicente Navarro.*

The Vera coffee table brings elegance and coherence to any space. It is a piece that integrates easily both at home and in offices and hotels.

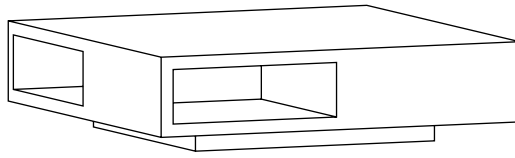

**VERA, MIMICRY.**

Vera is the perfect example of adaptable furniture that blends in with its surroundings. Perfect for large spaces where you can develop all your faculties to the maximum, this coffee table occupies a necessary volume to give meaning to the environment that surrounds it. In addition to its elegance and sobriety, it adds a touch of functionality with its interior openings.

*Vera in residential project Palma de Mallorca (Spain).
Project by Negre.*

MARÍA

Transparency

Miguel Milá

The work in every detail represents the stamp of its author, excellence and timelessness. Miguel Milá, a pioneer of 1950s design in Spain, has collaborated with Kendo in the re-edition of María.

The table is characterised by its lightness and transparency. Not only does it allow a full view of what is underneath, but it is also capable of highlighting and framing it.

On these pages, Maria, with her enveloping play of transparencies.

Lightness
Transparency
Design.

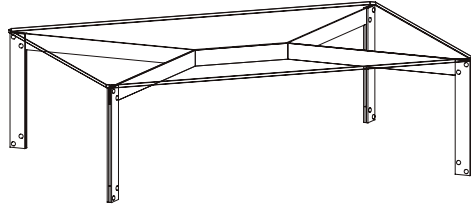

ELEGANCE AND TIMELESSNESS

María gives style in her concept. Miguel Milá's design produces a visual effect that transforms the environment and mimics the piece with its surroundings.

GREY

Francesc Rifé

A collection of consoles whose grey or smoked bronze mirror gives them a distinguished and elegant air that brings spaciousness and dynamism to any room, always offering practicality and good taste.

FUNCTIONAL MINIMALISM

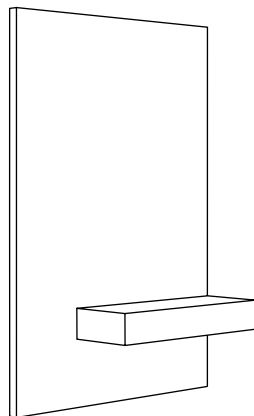

Grey is a minimalist, practical console mirror that makes a difference. It offers the possibility of integrating an indirect light led luminaire in the lower base of its drawer, adding warmth and functionality to the design. The Grey console is available in two versions depending on the size of the back panel and the position of the drawer, to adapt to all types of interiors. Its play of straight planes as well as the reflection of the mirror give it unique characteristics that make it an original piece that is at the same time simply elegant. Grey follows the line of technical, original and customisable design that allows it to adapt to numerous environments and spaces.

Among the many possibilities offered by Grey, there is the option of integrating LED lights in the bottom base of the drawer.

CLIK

Mario Ruiz

Clik is a collection of coffee and side tables for use in contract and residential spaces. The collection stands out for having a metal structure that acts as a link between the base and the top, achieving an original and balanced solution.

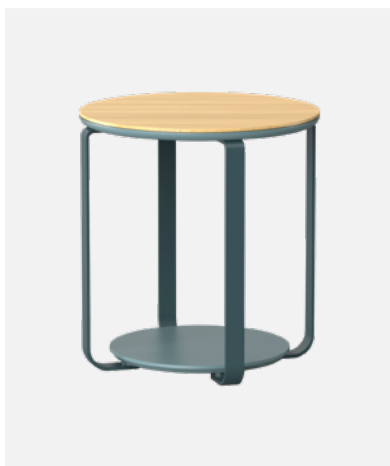

CLIK, a Universe

CLIK: POSSIBILITIES

The Clik collection is the perfect example of the variety of good design. Its elegant design allows the finishes of the top, base of the top, structure and base to be fully customised, allowing the user to perfectly adjust the table so that it blends in perfectly with its surroundings. Clik is a veritable universe of design possibilities.

On the left page, Clik table in black glass finish on the top and black lacquer on the base of the top, structure and tops.

Base of the top structure: Ocean

CLIK Ø 70 x 40 cm

Top: Natural oak
Base of the top and structure: Stone
Base: Graphite

A COLLECTION, A FAMILY

Clik is a family of tables composed of different models, the essence of this collection is the interplay between the top and the base of the top that permits creating all types of variations and compositions to suit the user's taste, generating immense possibilities. Its slender legs house a magazine rack that brings greater aesthetics and practicality to the collection, which finds its extension in the Clik Lite, a lighter version that reveals the perfect union of the structure in the centre, creating a magnificent visual effect that brings elegance to the environment.

CLIK LITE

Mario Ruiz

Clik Lite is a collection of coffee and side tables for use in contract and residential spaces. The collection stands out for its original and balanced structure that allows it to adapt easily to any environment.

The Klik Lite collection is subtle in every detail. The top is available in different materials such as oak veneer, black glass and MDF lacquered in all colours. The metal structure with four legs connected in a cross shape marks its identity together with the different pieces that compose it.

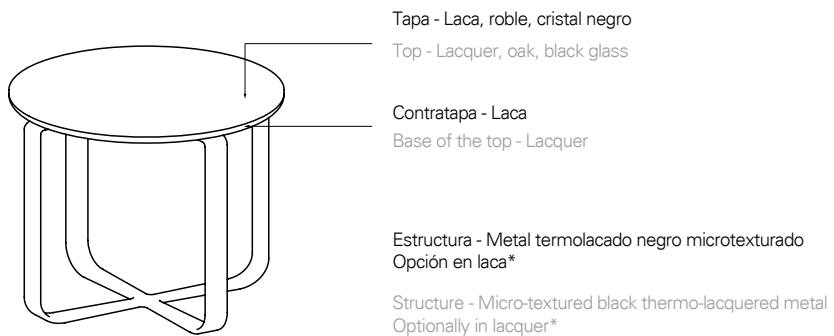

CLIK LITE, DESIGN AND MIMICRY

Clik Lite is the perfect choice when it comes to transmitting the purest values of design, as its adaptation to the environment makes it a unique and indispensable element that undoubtedly gives a feeling of harmony, tranquillity and calm. The wide variety of finishes allows total personalisation of the table to the designed space. The shape of its legs as well as the subtle support of the top generate a unique effect of simplicity, elegance and lightness that allows to play with other constituent elements of the environment to give a timeless touch to the room.

On these pages, Clik Lite in black glass top, black lacquered base of the top and black microtextured thermo-lacquered structure.

AXIL

Serafín Redondo

Axil has become a reference piece in our trajectory. It surprises by its marked volume and the exquisite craftsmanship of the details in its construction. With its variety of finishes and elegant design, it is an indispensable piece for any space.

● Natural oak

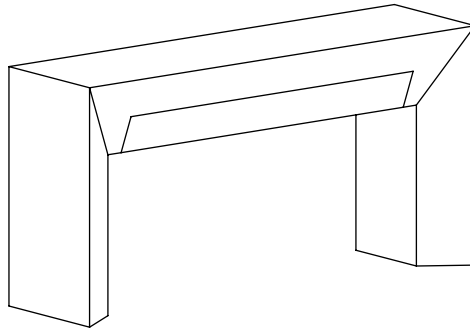

Axil is a very practical and original solution, with a drawer integrated in the lower part of the unit to facilitate the storage of elements inside. Thanks to the naturalness of its finishes, it brings warmth to the room.

TRIA

PerezOchando

Because of its uniqueness, the Tria table has become an iconic piece in our collection. Its careful design together with the wide range of colours of its finish make the table a unique object that will make us fall in love with its freshness and style.

Tria, the simplicity of good design.

Tria is a table with apparently simple lines, but with a very interesting visual play thanks to the cavity formed by joining the three metal plates creating an original triangular silhouette that gives shape to the table.

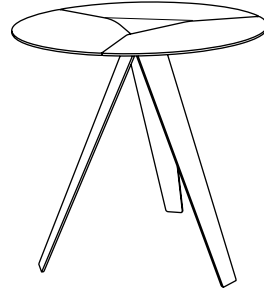

*Lightweight,
original
different*

Its original design generates the visual effect of the legs being an extension of the table top itself, turning its silhouette into a unique piece that also offers numerous possibilities thanks to its large number of finishes and the combination with other tables, both the same and different.

On the next page Tria in tile lacquer finish.
