1907 over 100 years of CUBISM

To create this collection we've been inspired by some of the new artistic movements from the early 20th Century such as Cubism, Neoplasticism, and Suprematism. These styles caused a huge intellectual revolution that changed our perception of art, as these artistic trends were created with established values. We wanted to break away from some of the usual concepts of present-day furniture design. That's why all pieces of this collection have been conceived using sculptural elements that stand out with a sense proud presence within the environment of your choice.

Their beauty is formed and crafted using blocks that are intricately cut and overlapped and fused together with unique depth of colour and clarity. Our focus on trend and craftsmanship go together and achieve new rhythms and harmonious compositions where light and shade reveal their full potential. In conclusion our collection, with its variety of elements and considered original design has achieved a complete and comprehensive range of timeless compositions and a true platform of quality to embrace.

Hope you enjoy going BACK TO 1907.

1907 más de 100 años de CUBISMO

Para crear esta colección, nos hemos basado en algunas de las nuevas corrientes artísticas de principio del siglo XX como el cubismo, el neoplasticismo y el suprematismo. Estos movimientos supusieron una gran revolución intelectual que cambió la percepción del arte. Del mismo modo que estas tendencias artísticas rompieron con todo lo establecido, nosotros queremos romper con algunos de los conceptos clásicos del mobiliario actual. Hemos concebido los muebles de esta colección como piezas escultóricas que pueden ser protagonistas de la estancia en la que se encuentran. Son bloques que se cortan, que se solapan, que se acompañan creando interesantes ritmos y composiciones armónicas donde las luces y las sombras revelan sus profundidades. La colección se completa con diversos elementos de mobiliario que hemos diseñado siguiendo una estética de líneas depuradas para lograr un conjunto completo e intemporal. Esperamos que disfrutéis de la vuelta a 1907.

1907 più di 10 anni di CUBISMO

Per creare questa collezione ci siamo basati su alcune delle nuove correnti artistiche degli inizi del xx secolo come il cubismo, il neoplasticismo e il suprematismo. Questi movimenti causarono una grande rivoluzione intellettuale che cambiò definitivamente la percezione dell'arte. Allo stesso modo in cui queste tendenze artistiche ruppero con lo stabilito noi vogliamo rompere con alcuni dei concetti classici dell'arredamento moderno. Abbiamo concepito i mobili di questa collezione come pezzi scultorei che possono essere protagonisti della permanenza e dell'incontro. Sono blocchi che si tagliano, che si sovrappongono, che si accompagnano, creando ritmi interessanti e composizioni armoniche dove le luci e le ombre rivelano le loro profondità. La collezione si completa con diversi elementi d'arredamento che abbiamo disegnato seguendo un'estetica di linee pulite per realizzare un connubio completo e senza tempo. Aspettiamo che approfittiate del ritorno al 1907.

1907 Mehr als 100 Jahre Kubismus

Um diese Kollektion zu gestalten, haben wir uns in manchen von den Stilrichtungen anfangs des XX. Jahrhunderts wie der Kubismus, der Neoplastizismus und der Suprematismus inspiriert. Diese Bewegungen bedeuteten eine grosse Revolution, die die Wahrnehmung der Kunst veränderte. Auf die gleiche Weise wollen wir auch einige von den klassischen Konzepten des aktuellen Möbeldesign ändern.

Die Möbel dieser Kollektion wurden wie Skulpturen konzipiert, die die Hauptrolle im Raum übernehmen sollen. Sie werden von Blöcken gestaltet, die sich schneiden oder überlappen lassen und dadurch interessante Rhythmen und harmonische Kompositionen bilden wo Licht und Schatten ihre Tiefen enthüllen.

Die Kollektion wird mit verschiedenen Möbelementen abgeschlossen, die nach einer depurierten Ästhetik entwickelt wurden, um eine komplette und zeitlose Einheit zu erreichen.

Wir hoffen, dass Sie die Rückkehr nach 1907 geniessen.

over 100 years of evolution

back to 1907
Live it up

Il cubismo es un movimiento de gran importancia en
el desarrollo de la historia del arte moderno. Surge a
principios del siglo XX, en particular, de las vanguardias
artísticas que surgieron en Europa Occidental. Nace del
rechazo de la representación por medio de la figura humana
y, fundamentalmente, de la perspectiva. Su origen se lo
atribuye a los pintores españoles y franceses Pablo
Picasso y Georges Braque, quienes se inspiraron en el
arte primitivo y el arte africano, entre otros. La aparición
de este movimiento coincidió con el desarrollo de la
teoría de la relatividad de Albert Einstein, lo que puede ser
considerado un ejemplo de la influencia de la ciencia en el arte.

Multiculturalism and globalisation

In the visual language of Art, the idea of multiculturalism has been emphasised during the past decades, thanks largely to the use of new technological advancement, literature, material compositions and dynamic manufacturing techniques.

Throughout the history of Western Art, in which certain countries have dominated the creative scene at different moments in time, the bonds and links between artworks and furniture have been strengthened and established by the aesthetic value inherent in these works.

Other tools of improvement such as proactive communication, collaborative interaction, and the ease of distribution of artworks reflect this integration not only in Western Culture but also in a totally globalised World.
