

INVITING LED Yellow wall lamp

Ref. 57302

Inviting Light is a family designed by Bohman&Folenius for home lighting. Its main characteristic is that the light moves to accompany you according to the different needs and moods. The head of the lamp can be adjusted both in its horizontal and vertical axis, and the light is dimmable. By sliding forward and back the top circumference, you can change the intensity of the light and by rotating the same circumference, you can change the temperature of the colour. This yellow wall lamp is designed to illuminate work tables, reading spaces or shelves, as well as bed heads.
