Headquarter in 1967

ES En 1967, Francisco Juan Martínez funda Frajumar.

Enfocada, desde sus comienzos, a la realización de un producto atemporal sin olvidar el saber tradicional. En sus orígenes, se dedicó a la fabricación de muebles sobre estructura de acero tubular. En general, muebles metálicos con formas originales y diferenciadas de la competencia. Modelos como el Sillón "BALANCÍN" y la Silla nº22, son dos de los modelos referencia en la historia de la empresa. También mesas y mesas auxiliares como "TWIST", completaban el primer catálogo de la firma. Unas primeras colecciones de mobiliario con el objetivo de satisfacer plenamente las necesidades de la vida contemporánea de la época.

EN In 1967, Francisco Juan Martínez founded Frajumar.

From the beginning, the company focused on the creation of a timeless product without forgetting traditional know-how. Originally, it was dedicated to the manufacture of furniture on a tubular steel structure. In general, metal furniture with original shapes that stand out from the competition. Models such as the "BALANCÍN" armchair and the nº22 chair are two of the reference models in the company's history. Tables and side tables such as "TWIST" completed the company's first catalogue. These were the first furniture collections with the aim of fully satisfying the needs of contemporary life at the time.

HISTORY

ES Desde 1967, empresa familiar con más de 56 años de experiencia.

Con la incorporación a la directiva progresivamente de sus tres hijos, esta toma un nuevo rumbo, debido a sus experiencias laborales en el mundo del diseño y marketing, adoptan una estrategia basada en la colaboración con diseñadores, aportando a sus productos

los valores comerciales impuestos por el propio diseño. Desde entonces el "diseño" se ha convertido en el eje troncal y la herramienta clave para la gestión de su actividad empresarial, lo que les ha permitido transformar un producto usual, como el sofá, en otro netamente diferenciado.

EN Since 1967, a family business with more than 56 years of experience.

With the incorporation of their three sons to the management team, the company took a new direction, due to their work experience in the world of design and marketing, they adopted a strategy based on collaboration with designers, providing their products by design itself. Since then, "design" has become the backbone and the key tool for the management of their business activity, which has allowed them to transform a common product, such as the sofa, into a clearly differentiated one.

ES Una nueva colección atemporal, abierta a la aportación de proyectos que proceden de diferentes culturas y antecedentes históricos, Beltá Frajumar los recibe y los hace propios con su personalidad artesana, con su propia **"Marca"**. Los productos de esta colección se refieren a las diferentes necesidades, a veces incluso contradictorias. Sin embargo, desde ellos surge la búsqueda transversal de lenguajes, una cualidad que ha hecho que los modelos de la firma sean un punto de referencia para la cultura internacional del diseño.

Materiales

Materials | Familles

ES Comprometido con la innovación y la calidad, Beltá Frajumar fabrica sus colecciones con la más estricta exigencia en la selección de los materiales y acabados. Las maderas empleadas, como roble, nogal o fresno, provienen de bosques renovables. Los metales son de gran resistencia a la corrosión provocada por los agentes atmosféricos y químicos. Tejidos certificados que han sido sometidas a ensayos de calidad en los centros tecnológicos textiles con el propósito de que cumplan correctamente con el uso para el que han sido fabricadas.

EN Committed to innovation and quality, Beltá Frajumar manufactures its collections with the strictest requirements in the selection of materials and finishes. The woods used, such as oak, walnut or ash, come from renewable forests. The metals are highly resistant to corrosion caused by atmospheric and chemical agents. Certified fabrics that have been subjected to quality tests in textile technology centres to ensure that they comply correctly with the use for which they have been manufactured.

FR Attachée à l'innovation et à la qualité, Beltá Frajumar fabrique ses collections en respectant les exigences les plus strictes en matière de sélection des matériaux et des finitions. Les bois utilisés, tels que le chêne, le noyer ou le frêne, proviennent de forêts renouvelables. Les métaux sont très résistants à la corrosion causée par les agents atmosphériques et chimiques. Des tissus certifiés qui ont été soumis à des tests de qualité dans des centres de technologie textile afin de s'assurer qu'ils répondent correctement à l'usage pour lequel ils ont été fabriqués.
