

TI-ZAS

designed by

Fernando Martínez

TI-ZAS

Con la extrusión del aluminio y del policarbonato hemos creado estos "trazos de tiza" de diseño minimalista, muy modular y versátil, iluminados por un PCB-LED. La distribución de sus líneas nos permiten combinaciones múltiples.

TI-ZAS

With the extrusion of aluminium and polycarbonate, we have created these "chalk traces" with a minimalist design, very modular and versatile, illuminated with a PCB-LED. The distribution of their lines allow us multiple combinations. Now also available in a wall bracket option with USB connection and reading point.
