Descripción Description

La colección Domus parte de una afirmación “Es una colección que me encantaría producirla yo mismo en un taller de madera por su sencillez y forma robusta” Un ejercicio de simplicidad, sobriedad y carácter, con dos detalles que lo definen, del corte de la pata y su encuentro con la parte del sobre. La colección de mesas auxiliares y de centro se completa con unos taburetes de dos altura

The Domus collection is based on a statement; “It is a collection that I would love to produce myself in a carpenter’s workshop, owing to its simplicity and robust form.” An exercise in simplicity, sobriety and character, defined by two details, the cut of the leg and its meeting with the top. The collection of occasional and centre tables is complemented with stools in two heights.
